SENIOR PRODUCT & VISUAL DESIGNER | CREATIVE LEAD | AI DESIGN & CREATIVE TECHNOLOGY

India · Open to remote and international opportunities | piaravinoth@gmail.com

Portfolio: https://viswanathan-portfolio-iota.vercel.app/ | LinkedIn: linkedin.com/in/viswanathan-g-55a0176a

PROFESSIONAL PROFILE

Senior product and visual designer and creative lead with 10+ years of experience delivering brand-led campaigns, digital experiences and production-ready visual communication. Expertise spans creative direction, art direction, UI/UX, design systems, stakeholder collaboration and quality assurance across digital, print and on-ground channels. Delivered 200+ campaign creatives at I-PAC and developed eight digital products, including AI Design Studio, used by approximately 200–300 people.

CORE EXPERTISE

Creative direction · Art direction · Visual identity · Brand systems · UI/UX · Figma · Responsive design · Design systems · Product prototyping · Design review · Digital campaigns · Print & OOH · Generative AI · Design automation · AI-assisted app development

PROFESSIONAL EXPERIENCE

Creative / Design Leadership | Nation with NaMo • Feb 2019 – Present

- Lead end-to-end creative direction and visual execution for digital, social, presentations, print and on-ground communication; interpret briefs, establish design priorities and deliver production-ready assets aligned with campaign objectives.
- Develop and maintain reusable brand assets, visual guidelines, design templates and review workflows to improve consistency across high-volume creative production and multiple communication formats.
- Conceptualized and developed AI Design Studio, an AI-assisted creative platform supporting generation, editable canvas workflows, local refinement, review and export; adopted by approximately 200–300 users.
- Designed and built eight digital products across creative production, content operations, social tracking, analytics, video downloading, education and expense management; translated workflow requirements into responsive user interfaces.
- Provide art direction, design feedback and production quality checks covering composition, typography, imagery, brand compliance, accessibility considerations and final-file accuracy.
- Coordinate with content and campaign teams to prioritize revisions, manage creative handoffs and maintain a consistent visual standard across parallel deliverables.
- Apply user-centered product thinking to information architecture, interaction flows, responsive layouts and iterative design refinement for internally developed web tools.

Senior Graphic Designer | I-PAC • Jul 2018 – Jan 2019

- Produced 200+ campaign creatives across digital, editorial, presentation, print and field communication, adapting messaging and visual hierarchy for distinct formats and fast-moving deadlines.
- Collaborated with content, campaign and communication stakeholders to translate complex briefs into clear, audience-focused visual narratives while maintaining brand consistency and production accuracy.
- Adapt creative concepts for multiple placements and audience touchpoints, balancing clarity, turnaround time and technical production requirements.

Graphic Designer | Ad2pro Media Solutions, Chennai • Apr 2016 – Jul 2018

- Executed multi-format advertising and production design for clients in Australia and New Zealand, preparing digital and print assets with attention to layout precision, brand requirements and delivery specifications.
- Work across layout, typography, image treatment and asset preparation to translate client feedback into accurate revisions and final deliverables.

Design Intern | Peacock India • 2015 – 2016

- Supported commercial visual communication assignments through concept exploration, layout development, image editing and preparation of production-ready creative assets.

SELECTED PRODUCT DESIGN & DEVELOPMENT PROJECTS

AI Design Studio | Creative production platform • Product concept · UI/UX · AI workflows

- Built an editable AI-assisted creative production platform covering generation, refinement, layer controls, review and export; reached approximately 200–300 users.

Content Studio | News and content operations • Product design · Workflow automation

- Created a shared workspace for newspaper and video-source monitoring, organized content discovery, AI-assisted writing, filtering and team activity.

Caption Tool | AI-assisted content writing • UI/UX · Prompt workflows

- Designed a structured caption-generation workflow with configurable briefs, length controls and mobile-friendly copying.

Language Learning App | Mobile-first education experience • Product design · Responsive UI

- Built an interactive language-learning experience with pronunciation playback and formal/informal usage modes, designed for phone and tablet access.

SplitMate | Shared expense tracking • Product design · PWA

- Developed a mobile-first shared-expense application for cross-platform use, focusing on expense splitting and settlement clarity.

Content Tracker | Social post discovery and link tracking • Product design · Workflow automation

- Built a content-tracking workflow to record published Facebook, Instagram and X post links, supporting team submissions and cross-platform follow-up.

Social Media Intelligence | Multi-platform reporting dashboard • Analytics UX · Data workflows

- Designed an intelligence dashboard for Facebook and Instagram account monitoring, content reporting, account comparison and historical data organization.

Video Downloader | Unified social video download experience • Product design · UI/UX · Web workflows

- Designed a unified multi-platform video downloader experience with streamlined link input, download options and responsive interface flows.

TOOLS AND TECHNOLOGY

DESIGN Photoshop · Illustrator · Figma · CorelDRAW · Premiere Pro · Adobe Firefly · Midjourney

PRODUCT & BUILD Responsive UI · Wireframing · Design systems · Next.js · Supabase · API integration · AI-assisted development · Codex

WORKFLOW Generative AI · Prompt design · Design automation · Creative review · Cross-functional delivery

EDUCATION

M.Sc. Visual Communication | Karunya University, Coimbatore

SELECTED MEASURABLE IMPACT

10+ years of design experience · 200+ campaign creatives at I-PAC · 8 digital products developed · Approximately 200–300 AI Design Studio users
